

FIGHTING HAS SLACKENED

French Are Organizing Captured Positions in the Verdun Region

GERMANS TELL OF GUNS ON FRONT

Attacks Repulsed in West, Russians Captured in the East, Says Berlin

Paris, April 13.—A slackening of the fighting in the region near Verdun which has marked the past week, is reported in the brief communication issued by the war office yesterday afternoon. The French are contenting themselves with establishing more firmly the positions gained by them between the Meuse and Moselle rivers and the Germans appear to be seeking to regain their strength, as no counter attacks are being launched upon the French lines.

This full extends along most of the French battle front. In Belgium, between the Oise and Aisne and in Champagne there was nothing but cannonades reported.

The text of the communiqué follows: "No infantry action was reported in Belgium during the day of April 11. On the Aisne between the Oise and Aisne and in Champagne there were cannonades on both sides.

"Between the Meuse and the Moselle we have organized ourselves in the positions conquered in the course of preceding conflicts. The enemy has made no counter attacks.

"On April 10, in the forest of Ailly and in the forest of Le Pretre we took five rapid fire guns and a bomb thrower."

Berlin, (via wireless to Sayville, L. I.) April 13.—Successes for the German armies on both the western and eastern fronts are claimed in the statement given out by general headquarters. French attacks in the regions of the Argonne, Cambes and the Priest Wald (Le Pretre forest), were repulsed Sunday, it is asserted. In an advance from Mariampol, between the east Prussian border and the Niemen river, the Germans have captured nine Russian officers and 1,350 men, the report says.

Following is a statement by the general staff:

"Western theatre.—On Sunday the front was comparatively quiet. The French made attacks in the Argonne, at Cambes, in the ally forest and at Priest Wald. All were repulsed.

"Since an air attack by the enemy killed three women in the open town of Muelheim with bombs, German bombs have been thrown on the centre of Nancy and the fortifications there.

"Captured French officers say that the cathedral of Notre Dame, the Paris Louvre and the Invalides buildings are being used for military purposes, searchlights, wireless apparatus and machine guns have been installed.

"Eastern theatre.—German troops advancing eastward from Mariampol captured nine officers and 1,350 Russians. They also took four machine guns.

"Northeast of Lomez the Russians threw bombs. These were of a non-exploding type, but developed asphyxiating gases.

"The Russians have officially circulated a report of the mutilating of Russian non-commissioned officers in the presence of German officers. This is a flat, nonsensical lie. No discussion is necessary."

PEACE RUMORS AGAIN IN PETROGRAD PRESS

Reports that Austria Seeks Terms Through a Neutral Power Are Persistent.

Petrograd, April 13.—Petrograd newspapers again asserted yesterday that Austria-Hungary had asked peace terms through a neutral power, presumably Switzerland. Reports to this effect have been confirmed from authoritative sources the newspapers asserted.

The fall of Przemysl and the fear that Italy and perhaps Rumania will enter the war on the side of the allies has created a spirit of despondency in Franz Josef's empire, according to dispatches received here. The grain supply is rapidly becoming exhausted, according to Russian correspondents in Switzerland. The feeling in the dual monarchy is that the ultimate effect of the war will be disastrous to the empire.

BOSTON MAN KILLED.

Morry Newhoff Victim of Automobile Accident at Wrentham.

Wrentham, Mass., April 13.—Morry Newhoff, a member of a firm of shirt makers in Boston, was instantly killed and his wife and his twelve-year-old daughter were seriously injured in an automobile accident here yesterday. The car in which they were driving skidded and overturned. Mrs. Newhoff and the child were taken to the Boston City hospital, where several bone fractures were reduced.

Why Suffer From Migraine or Sick Headache?

USE ANTI-KAMNIA TABLETS

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodic attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. But there are cures during the attack, and all that is possible to suggest, while care to the diet is the best preventive measure. An attack may often be prevented by taking two Anti-Kamnia Tablets when the first symptoms appear, and one Anti-Kamnia Tablet every two hours during the attack. The first symptoms are the pain and brings rest and quiet. Anti-Kamnia Tablets may be obtained of all druggists. Ask for A-K Tablets. They quickly relieve all pain.

"COME HOME TO DINNER WITH ME"

"No, thank you. Can't eat with any comfort now."
"What? Haven't you heard about Dys-pep-lets? Sure thing for sour stomach, distress, heartburn and all indigestion."
"Do you guarantee them?"
"I certainly do on my own experience and that of many friends. Always carry a box in my pocket."
"All right! I'll come and enjoy a good meal once more."
Dys-pep-lets are making fast friends of all who try them.—Adv't.

NEW HAVEN R. R. SELLS \$27,000,000 NOTES HERE

The Proceeds Are To Be Used To Meet Maturities Falling Due on May 1.

New York, April 13.—A syndicate composed of New York and Boston banks and banking houses has purchased from the New York, New Haven & Hartford railroad \$27,000,000 one-year 5 per cent. notes. The proceeds of the issue, together with \$3,000,000 cash to be taken from the railroad company's treasury, will be used on May 1 in paying off \$20,000,000 5 per cent. collateral notes of the New Haven road and \$10,000,000 5 per cent. notes of the Harlem River & Port Chester railroad, guaranteed by the New Haven railroad. The collateral back of the new note issue is composed of securities of the New Haven road having a valuation in excess of \$30,000,000.

NEW HEARINGS ON THE B. & M. BILL

Public Service Commission's Plan Will Not Be Reported To The New Hampshire Legislature.

Concord, N. H., April 13.—The bill for the reorganization of the Boston & Maine railroad, which the judiciary committee expected to present to the House of Representatives last night, will not be reported. Instead, upon the insistence of Governor Spaulding, the whole question has been opened again and the committee will conduct further hearings. Conferences were in progress yesterday to determine whether they shall be before the judiciary committee or a committee of the whole House. The judiciary committee had voted 11 to 4 against the amended public service commission bill, which was to have been reported to the House last night.

DEATH OF DR. B. J. ANDREWS.

Was Superintendent of Mary Fletcher Hospital for 25 Years.

Burlington, April 13.—Dr. Bertrand Jewell Andrews died at Mary Fletcher hospital yesterday after a long period of failing health. The funeral will be held at the Baptist church Thursday at 2 p. m. with burial in Lake View cemetery.

Dr. Andrews was born in Jericho, Jan. 11, 1850, son of Samuel A. and Muriella Woodworth Andrews, well known residents of the town. Dr. Andrews was educated in the public schools of Jericho, at Bellows Falls academy, Fairfax academy and Franklin institute, Franklin, and at the age of 17 years was appointed station agent at Bolton by the Central Vermont railroad, holding the place for three years. He held the same position at Richmond for 11 years. He was graduated from the medical department of the University of Vermont, class of 1883, and practiced his profession in Richmond for three years, until Feb. 19, 1889, he was made superintendent of Mary Fletcher hospital, a position which he filled with marked ability and efficiency for a quarter of a century.

Five men in this section of the state were more widely known than he, and his executive ability and attention to the multitudinous details of his exacting position were fully recognized and appreciated. Dr. Andrews at his voluntary retirement last fall, had been blind for nearly a decade. In spite of this infirmity he was able to conduct the affairs of the institution with excellent success and good judgment.

Dr. Andrews married Angie F. Baker of Northfield Sept. 24, 1889, who, with one son, B. Fletcher Andrews, a second year medical student. There is also a sister, Mrs. Grace Davison of Newfane.

HEAR ROCKEFELLER TAX CASE.

Suit For Injunction Went On Yesterday in Cleveland, O.

Cleveland, O., April 13.—The suit of John D. Rockefeller for an injunction to prevent County Treasury Officer Benoit from collecting taxes on a personal property valuation of over \$11,000,000 by county tax officials is being heard in federal court. Mr. Rockefeller will not come to Cleveland for the hearing, his deposition having been taken at Tarrytown, N. Y.

At the time the depositions were taken Mr. Rockefeller testified that his legal residence is in New York and that he remained at his Forest Hill estate here the major part of last year because of the illness of Mrs. Rockefeller. Mrs. Rockefeller has died since the depositions were taken.

County tax officials contend that because Mr. Rockefeller remained in Cleveland a greater part of last year he established a legal residence here and should pay taxes on the valuation placed by them.

ANNULS WISCONSIN LAW.

Supreme Court Overturns Statute Providing Two Trains a Day.

Washington, D. C., April 13.—The Wisconsin statute of 1911 providing that four or more passenger trains are run each way daily by a railroad at least two shall be stopped at every postoffice village of 200 or more inhabitants along the road was annulled yesterday by an arbitrary and unconstitutional, by the supreme court. The case arose over the stopping of trains at Colborne, Wis.

CHARGE \$500,000 SWINDLE.

Indictments Voted at Chicago Against John and William Farnen.

Chicago, April 13.—Indictments against John Farnen, Jr. and his father, William Farnen, and six other men, charged with swindling of the mails in the sale of securities amounting to \$5,000,000 in a Colorado corporation deal, were announced yesterday by the United States district attorney's office here.

WILSON STILL CHEERFUL

Recent Reverses Have No Effect on His Psychology

SUCCESS IN NEXT YEAR'S ELECTION

War Record He Believes Will Be Popular with Voters

Washington, April 13.—The Thompson landslide in Chicago and Republican victories in many other municipal elections last week, while disappointing to the president, do not disturb his confidence that the people will endorse the Democratic national administration in the presidential election next year. He believes there will be two principal factors in the judgment of his administration by the voters and in both cases it will be favorable. These two factors are:

The guidance of the affairs of the nation through the maze of pitfalls produced by the European war.

The enactment of legislation which the president believes has liberated business from monopolistic control.

The president fully realizes that for several months the Republicans have been able to make political capital of the business depression, for which they urged the people, apparently with considerable success, to blame the Democrats. But times are on the mend in the opinion of the president and within a few months the Republicans, he thinks, will be bereft of this issue.

Some Democratic leaders express the opinion that the war of speculation which has hit the New York stock exchange heralds the advent of real prosperity. Convinced that a business boom is at hand investors say these politicians are scrambling to get in on the ground floor and win fortunes from the impending rise in stocks.

Republican leaders say that if prosperity comes it will be in spite of the Democrats and that the people will demonstrate at the polls next year that they care to take no chances on a repetition of the conditions of 1913 and 1914. The more they study the Chicago election the more convinced they are that Illinois is back in the Republican column to stay and that the state will wield a more powerful influence than ever before in the selection of a Republican candidate.

BURLESON REPEATS CHARGES.

He Again Declares Railroads Sometimes Carry Express Cheaper Than Mail.

Washington, April 13.—Postmaster General Burleson has issued another statement bearing on his controversy with railway managers relative to railway mail pay. In his previous statements on the subject, Mr. Burleson has used sharp language in referring to railway managers, accusing them of misrepresentation, bad faith and other acts of impropriety. In his latest statement, he resorts only to argument, contending that all the facts warrant the conclusion that in carrying the mails the railroads are generally fairly paid, and in some instances receive remuneration far beyond the worth of the service furnished. Special reference is made by the postmaster-general to statements recently made on behalf of railways attacking his comparison of revenue from mail and express on certain specific business. The postmaster-general reiterates his charge that railways sometimes carry express at cheaper rates than the mails, and he states that frequently the department sends empty mail bags by express as a means of saving money.

CHECK ITALIAN MEETINGS.

Government Takes Into Custody Heads of Both War and Peace Parties.

Rome, April 13.—Notwithstanding orders issued by the police, attempts were made Sunday by persons, both for and against intervention by Italy in the war to hold public meetings in all parts of the country. The crowds which gathered were charged and dispersed in nearly every instance by carabinieri and troops and some arrests were made, among those taken into custody being Professor Benito Mussolini, the Socialist leader who favors a continuance of neutrality, and Signor Marinetti, the Futurist leader who is urging intervention.

The central sections of Rome were occupied until late Sunday night by troops who guarded the approaches to the Villa Malta, the residence of the German ambassador, Prince von Buelow, and the Quirinal. The building most strongly defended, however, was the Austrian embassy, where troops and mounted carabinieri charged the demonstrators who evidenced by their shouts the animosity they felt for Austria and their desire for Italy to begin hostilities.

KILLING OFF RATS.

New Orleans, at Same Time, Eradicates Bubonic Plague.

Washington, April 13.—"More than half of the approximately 70,000 buildings in New Orleans have been made rat proof; there has not been a case of plague since October 4 last, and it will not be long before New Orleans will be one of the most rat proof cities in the world," announced Dr. W. C. Rucker, assistant surgeon general of the Pacific health service yesterday. Doctor Rucker has charge of the eradication of the plague.

Reports yesterday showed 218,000 rats have been caught by the health authorities in New Orleans since the anti-plague campaign began last autumn and all of them have been subjected to bacteriological examination.

GOOD YEAR Fortified Tires

No Slip Weather "On Air" Cured With AB Weather Tires at Smooth

BE FULL OF JOY! TAKE CASCARETS

Feel Fine! Remove the Winter's Liver and Bowel Poison While You Sleep

Spend to Cents! Don't Stay Sick, Bileous, Headachy and Constipated

You will wake up feeling grand. Your head will be clear, breath right, tongue clean, stomach sweet—Get a 10-cent box now at any drug store. Best cathartic for children.—Adv't.

Chicago, April 13.—Cessation of building construction—a business that aggregates \$16,000,000 annually in Chicago—will take place Friday, according to a prediction yesterday by E. M. Craig, labor commissioner for the Construction Employers' association, in which contractors of a dozen divisions of the work are league with general contractors for co-operative effort in dealing with labor unions. The prediction was based upon an announcement by John Metz, president of the carpenters' district council, that 16,000 union men would walk out Friday from all work where the contractors refuse the new wage scale of 70 cents an hour. Mr. Metz said the district council Sunday refused the last peace proposal of the contractors, who offered 67½ cents an hour for the last half of a three-year contract. The men have been getting 65 cents. Under the rules of the contractors' association, Mr. Metz admitted, union carpenters who quit work will be blacklisted, and employers who submit to the union's terms will not be allowed to receive sub-contracts from members of the association. Carpenter contractors, like those in the sheet metal and other branches of construction, are under bonds to observe the rules of the association.

MAY TIE UP CHICAGO BUILDING OPERATIONS

16,000 Men Threaten To Abandon Work Where Contractors Refuse 70 Cents an Hour.

Chicago, April 13.—Cessation of building construction—a business that aggregates \$16,000,000 annually in Chicago—will take place Friday, according to a prediction yesterday by E. M. Craig, labor commissioner for the Construction Employers' association, in which contractors of a dozen divisions of the work are league with general contractors for co-operative effort in dealing with labor unions. The prediction was based upon an announcement by John Metz, president of the carpenters' district council, that 16,000 union men would walk out Friday from all work where the contractors refuse the new wage scale of 70 cents an hour. Mr. Metz said the district council Sunday refused the last peace proposal of the contractors, who offered 67½ cents an hour for the last half of a three-year contract. The men have been getting 65 cents. Under the rules of the contractors' association, Mr. Metz admitted, union carpenters who quit work will be blacklisted, and employers who submit to the union's terms will not be allowed to receive sub-contracts from members of the association. JURY EXONERATES JUDGE LINDSEY

Head of the Juvenile Court in Colorado Is Freed From All Charges of Misconduct.

Denver, Col., April 13.—Judge Ben H. Lindsey of the Denver juvenile court was exonerated of all charges of misconduct in a report of the county grand jury filed late yesterday. Frank L. Rose was indicted on a charge of criminal libel in connection with affidavits reflecting upon the character of Judge Lindsey.

EXPLOSION WRECKS ICE PLANT.

Building of Cudahy Packing Co. at Kansas City Damaged \$750,000.

Kansas City, Mo., April 13.—An explosion, the cause of which is unknown, Sunday night wrecked the seven-story cooling building of the Cudahy Packing Co. plant here, causing a loss estimated at \$750,000. Two men were injured seriously.

That Lecture from Berlin.

Those Americans who have long held that the violation of the Wilson administration with regard to Mexico would return to plague us will not be wholly surprised at the character of the German note with regard to the exportation of arms and ammunition to the allies. The Taft administration sought and obtained authority to prevent arms and ammunition going across the border to either of the Mexican factories. Its first object was to keep our border free from trouble. The Wilson administration, in its antipathy to Huerta, expanded the embargo only to lift it later to aid Villia. We stopped foreign steamers carrying arms for Huerta and allowed Villia to get all the arms he could pay for. Germany seizes upon our course with regard to Mexico to prove that if we would we could prevent the allies from drawing ammunition and supplies from the United States.

LONG A CEMETERY SUPT.

Michael Collins of Burlington Died Yesterday, Aged 74 Years.

Burlington, April 13.—Michael Collins of Lodge road died yesterday at his home of pneumonia. Mr. Collins had been ill 10 days, and had made a heroic fight for life.

Mr. Collins was born in Newton, County Limerick, Ireland, 74 years ago, the son of Michael and Johanna Collins. He came to this country 52 years ago and for several years was employed at the botanical gardens in Washington, D. C. Later he was gardener for the Burton family here and was also in the employ of Governor Underwood. He will be remembered, no doubt, by his intelligent, conscientious and skillful care of the city cemeteries, over which for 17 years he was superintendent. Mr. Collins was a citizen who will be missed by many.

He is survived by his wife, Mrs. Catherine Collins, by a brother, Stephen, of Shelburne, and by a sister, Mrs. Mary Kentle, of Plattsburg, N. Y.

PIUTES ARE RELEASED.

Chiefs Polk and Posey and Posey's Son Sign Agreement To Obey the Law.

Salt Lake City, Utah, April 13.—Acting on orders from Washington, the authorities here Sunday released from custody Chiefs Polk and Posey, and Posey's son, Piute Indians brought here by General Scott after they held a United States marshal and his posse at bay for weeks. They signed agreements to obey the law and in the future to surrender Indians accused of crime. The Te-Ne-Gat, over whom the trouble started, is awaiting trial at Denver.

KILLED BY OWN SHOTGUN TRAP.

Caused Death of a Most Vernon Poultry Raiser.

Most Vernon, N. H., April 13.—Joshua Barker, a poultry raiser, fell a victim yesterday of a shot gun trap, which he had set in his chicken house as a protection against thieves.

Strike Is On.

Auburn, N. Y., April 13.—The strike of street car employees in Auburn and on interurban lines radiating from this city was called off yesterday morning on news that the big strike which threatened to tie up traffic in cities between Buffalo and Syracuse had been settled. The strike which tied up Auburn for five days is one of the most extraordinary in railroading. The Auburn men went out in sympathy with the Syracuse men, although the latter never struck.

Neelon Unconscious.

Kansas City, April 13.—William B. Neelon, editor of the Kansas City Star, who is suffering from uraemic poisoning, has been unconscious since Thursday afternoon last. His physician announced yesterday, Mr. Neelon is 74 years old.

CHARGE McADOO TRYING TO RUIN ITS BUSINESS

Riggs National Bank, Washington, Brings Suit To Stop Alleged Interference.

BIG WAR ORDERS FOR SHOES.

New England Manufacturers Reported To Have Contracts for 3,000,000 Pairs.

Chicago, April 13.—Hilde and Leather states that the French government purchased \$350,000 of heavy sole leather last week for army purposes, 14 days delivery, inspection and payments at dock. Orders for 3,000,000 pairs of shoes are reported to have been placed last week in Boston by the Russian government. Three New England shoe manufacturers took the business, with delivery from four to six months. The leather called for is russet splits and large sales of this leather have been made. Rough splits are two to three cents higher and prices of flexible inner-soles and pickled splits are advanced. It is asserted that the French, Belgian and Italian governments are also about to place large orders for army shoes in America. Boston reports the sale of 500 tons of wax split for Russian shoes. These have been ordered by the Russians. War orders were placed last week for 15,000 sets of double harness, or 30,000 harnesses, from russet leather, also some quantities of bridles and saddles.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to Flush Kidneys and Neutralize Irritating Acids

NECESSITY OF INCREASING THE OUTPUT PER ACRE.

The Average Still Very Low.

It is time the dweller in the country began to show some serious concern as to the increased output of his acreage, for the recent statistics show a decrease in the purchasing power of an acre's yield during the last few years which should compel the most easy-going to stop and consider. There are many reasons for this state of affairs, perhaps chief among them being the increase in wages, which, however, could be met by a thorough-going attempt to make every single acre yield its utmost. In Europe, many a man and his family live comfortably off an acre or two of land, but the skill, industry, and keen intelligence he brings to bear on his work enable him to get the very most of the land is capable of yielding. In our own country, there has been so much virgin soil that too many land-owners have grown to have a smug complacency regarding natural growth, instead of bending all their energies into efficient and effective methods for improving run-down land, and thus obtaining a prosperous living. When it is realized that the purchasing power of one acre is five per cent. lower than it was five years ago, a certain curiosity is aroused as to some of the actual figures. For instance, a set of single harness (average prices are given) in 1909 cost \$13.50, which to-day costs \$15.50; a horse blanket, \$1.98, to-day \$2.17; an ordinary harrow, \$11.87, to-day \$12.15; a plough, \$11.45, to-day \$12.06; a single wagon, \$47.45, to-day, \$53.00; double wagon, \$68.83; to-day, \$77.45; mowers, \$47.23, to-day \$48.90, and so on.

Improvement Slow.

Of course, an improvement along certain lines in the average method of crop production is gradually coming to the fore by the fact that the production throughout the country of oats, corn, wheat and hay has increased considerably per acre, and, as it generally known, the 1914 apple crop is said to be the largest in the history of the country, being 250,000,000 bushels, as compared with 145,000,000 in 1913. But there is one point to be taken into consideration in these figures, namely, that they do not represent the total output, but only the so-called "commercial," or marketed, portion, for statistics show that in 1913 the "commercial" crop was only 40 per cent. of the actual output.

Thus, even taking the favorable nature of a season into consideration, conditions along certain lines in agriculture are improving. But, nevertheless, our friend in the country should bend all his energies toward a vigorous and vital upbuilding of scientific and economical methods, on his own acre, instead of a too eager assumption of a large acreage of small producing power.

WHAT ONE MAN DID.

An Average Net Income of \$706.93.

If the average man in the suburbs of the country would follow in interest and upkeep the example of one we are going to tell about, he would do so to his own very great comfort and advantage. This particular man took about 50 acres of land which, through general mismanagement and disorganization, had become an unfavorable property, with poor fences, worse drainage, and mostly run-down land. Although equipped with few dollars, this man was fortunate in possessing industry, energy, and courage, and the success of his 18 years' work on this land has proved that those qualities are capable of accomplishing.

After buying a sufficient outfit of wagons, tools, three horses, and one cow, for which he was obliged to go in debt, he considered his first task the clearing away of old fences and dividing the place into more regularly-shaped fields. He also removed several hundred stumps, and carted away some 600 yards of stone during those first few years, thus adding a large tract of available area. The beginning, of course, was largely single, but never discouraged, for the owner never allowed himself to lose sight of the ideal he had in mind, which was to increase the yield of every acre year by year. So he decided early upon a systematic three-year rotation of crops, namely, wheat, clover, and potatoes. It was not very long before these well-thought-out methods began to tell, and the result was a farm with definite yields and a carefully followed rotation, showing system and business organization. As the debts were gradually paid off, a complete and modern tiled drainage system was installed, adding, of course, greatly to the market price of the place.

Keen Business Sense Shown.

But where this man showed his keen business sense of steady profits was beginning at once this particular field rotation, for it is a short rotation, each crop coming once in three years, thus concentrating ploughing and sowing in three years, and weeding and hoeing in three years, and the potatoes were

B. V. D. Weather!

In a few days you'll make a hurried search for your light underwear—and nothing is much more urgent than the demand for light underwear when it comes.

Better look your underwear supply over—chances are you'll find you need some new garments.

If so, B. D. V.'s will just fill the bill. If you prefer other styles of summer underwear, though, you'll find us well supplied with a variety of good kinds.

Moore & Owens,

Barre's Leading Clothiers,

122 No. Main St., Phone 66-W

a good money crop, the wheat also fairly good, while the clover maintained the fertility of the soil.

The vegetable garden also played a very important part in the income of the family, and after some years of hard work it became a source of great profit, yielding some years several hundred dollars net. In the spring the garden was carefully planned out, several hundred pounds of home-mixed fertilizer put on, and the soil worked until it was in fine condition for seeding. Small fruits were also started—first strawberries and cherries, then the currants, gooseberries, raspberries, etc., great care being taken to plant early, mid-season, and late varieties, so that there might be no gaps in their selling capabilities.

In the orchard there were plums, peaches, pears, apples, and grapes, two acres of the land being devoted to these fruits, while the fertility of the soil was maintained by the same methods as on other parts of the place. Flowers also had their share of adding to instead of subtracting from the income, and 30 varieties of roses were grown successfully, which sold very well for outdoor specimens. In so short a space it is impossible to give all the details, but even this slight summing-up will show the struggles and handicaps with which a man may set out in life and how, with intelligence and labor, he may turn what seemed almost hopeless into a paying proposition.

BATTLESHIPS IN COMMISSION.

Missouri, Ohio and Wisconsin Will Go To Annapolis May 1.

Washington, April 13.—The battleships Missouri, Ohio and Wisconsin, the naval academy squadron, at present in reserve in the Philadelphia navy yard, yesterday were ordered in full commission not later than Thursday. They will go to Annapolis about May 1 to carry the midshipmen on their summer cruise.

No Decision in Leo Frank's Case.

Washington, April 13.—The supreme court failed to decide the Leo M. Frank case yesterday. A dozen opinions were announced, the most important of which affirmed the right of the state of New York to impose a franchise corporation tax on the Interborough.

A BEAUTIFUL PIANO FOR \$300

For the month of April only, we shall offer a beautiful new, large-size mahogany piano of standard make, with most elegant finish, a beautiful tone, all solid brass trimmings, a piano that regularly sells for \$350. When I told Mr. Adams, the manager of the piano department, that for the month of April I should advertise this piano for \$300, he replied that it was a crime to sell such a beautiful piano for \$300, so you can imagine it is some bargain. We warrant this piano for ten years, and the terms are \$10 down and \$28 per month. A catalogue showing the style of this piano will be sent to anyone interested in purchasing a piano. Geo. D. Jarvis & Son, Burlington, Vt.—Adv't.

A Sign of Beauty is a Joy Forever.

Dr. T. Felix Goussard's Oriental Cream or Magic! Skinfootier.

Beauty is a joy forever. It is the most precious of all possessions. It is the most valuable of all investments. It is the most profitable of all businesses. It is the most successful of all enterprises. It is the most enduring of all legacies. It is the most beautiful of all flowers. It is the most fragrant of all perfumes. It is the most delightful of all pleasures. It is the most satisfying of all achievements. It is the most glorious of all triumphs. It is the most sublime of all mysteries. It is the most profound of all secrets. It is the most sacred of all treasures. It is the most precious of all jewels. It is the most valuable of all possessions. It is the most profitable of all businesses. It is the most successful of all enterprises. It is the most enduring of all legacies. It is the most beautiful of all flowers. It is the most fragrant of all perfumes. It is the most delightful of all pleasures. It is the most satisfying of all achievements. It is the most glorious of all triumphs. It is the most sublime of all mysteries. It is the most profound of all secrets. It is the most sacred of all treasures. It is the most precious of all jewels. It is the most valuable of all possessions. It is the most profitable of all businesses. It is the most successful of all enterprises. It is the most enduring of
